

*Timeless elegance...*

## Demonstration of the REVEKOLL Balustrades Collection

## "Stainless Steel Detailing in Premium Fences"

... **Creates luster deepens and enriches the colour of steel**

Acid-proof steel is one of the most durable materials used in many industries. Stainless steel fences AISI 316l with elevated The chromium and nickel content, perfectly protects against corrosion for many years. In stainless steel detailing, this layer consists mainly of chromium oxides and is several times thicker and more solid.

This gives the metal an excellent coating to protect it from corrosion and other chemical agents that can degrade its surface. The result of such ongoing process in various areas is an improvement of resistance for up to 15-20 times, significant smoothing of the material surface and rounding of sharp edges.

**Quality, safety and a solid construction with a lifetime warranty!  
No visible welds or joints!**

## Obtained Patents

... With care for detail

1. Patented drilling technology along with embossing In fences and balustrades.
2. Patented technology for fastening the poles without visible welds. Which gives you extra visual effect..
