## About us

Luxurious items make everyday life extraordinary.

Luxury is a breath of beauty and extravagance into items that we can use every day.

The luxurious effect is created by precise workmanship, refinement of every detail and unique materials.

We design and manufacture fences that deserve to be deemed luxurious. It's modern jewelry for your surroundings.

Our priority is to make your everyday life a luxury by providing you not only with a striking presentation, but also impress you with functionality.

We believe that luxury is all about the highest quality, innovative, extravagant, modern product that decorates, adds style and elegance, and at the same time can serve you for many years in an unchanged form.

We design jewelry for your surroundings Fences, balustrades, handrails made of acid-resistant stainless steel.

We refine our patented products to perfection. We always aim to strive to offer our clients the highest quality sales and after-sales service. Our goal is your satisfaction.

Luxury is what everyone can have, but not everyone is able to choose luxury products that will become innovative, decorations that will operate reliably for many years. We offer luxury that will adorn your property, create the effect of individual innovation, a sense of privacy and security.

## Detailing

### "Stainless Steel Detailing in Premium Fences"

**... Creates luster deepens and enriches the colour of steel**

Acid-proof steel is one of the most durable materials used in many industries.

Stainless steel fences AISI 316L with elevated The chromium and nickel content, perfectly protects against corrosion for many years. In stainless steel detailing, this layer consists mainly of chromium oxides and is several times thicker and more solid.

This gives the metal an excellent coating to protect it from corrosion and other chemical agents that can degrade its surface. The result of such ongoing process in various areas is an improvement of resistance for up to 15-20 times, significant smoothing of the material surface and rounding of sharp edges.

**Quality, safety and a solid construction with a lifetime warranty!  
No visible welds or joints!**

## Revekoll - handicraft and technology shoulder to shoulder

### Revekoll steel fences - ecology in a luxurious edition

Revekoll stainless steel fences do not just decorate effectively and provide safety, but are also ecological. Treat yourself to luxury that favors environmental protection. Our fences do not require impregnation or cleaning with advanced chemical products.

Thanks to the use of stainless steel, our fences are not harmful to the environment and do not adversely affect the health of animals that may try, taste and... force the obstacle while running around the yard. Perforated fences reinforce the safety of residents and pets while limiting visibility from the outside. There is no need to use additional covers in the form of plastic wraps.

Ecological stainless steel fences awaken the senses and delight with functionality. Luxury paired with care for the planet has never reached this level!

All certified components made of stainless steel can be recycled. Used, replaceable products are given a second life as wholesome products. 100% recycled.

*Environment friendly*

The design and manufacture of luxury items require perfect knowledge of material specifications and adaptation of optimal, modern production technology to bring out the highest quality and unique, impeccable visual effect. Revekoll skillfully combines knowledge of the specifics of stainless steel with modern shapes, precise workmanship and reliable performance. Here, each stage of product development is closely linked with its luxurious feel. We are well aware that the modern style of innovative stainless steel fences creates an extraordinary result distinguished by perfect smoothness.

#### Technology paired with handicraft - Revekoll fencing systems

All elements are ground with a coarse scratch. The precision of operation can be compared to that in the production of Swiss watches. Owing to the accuracy and selection of appropriate parameters, we obtain perfect results and give you products that exhibit resistance to corrosion and a unique, **even iconic appearance**.

#### Stainless steel fences with superior quality

The production process of Revekoll fencing involves an extremely important element - stainless steel detailing.

A luxurious jewelry-like effect is possible thanks to the great commitment of employees who refine all the elements by hand.

Detailing ensures a coating that increases resistance and enhances the smoothing effect of the surface.

Revekoll features an offer of exclusive fences, balustrades and handrails dedicated for demanding customers who have an appreciation for careful workmanship, the use of sturdy materials and innovation, visible not only at the time of assembly, but also for many years of use. Patented patterns of perforated fencing panels that **we design and manufacture in Poland** guarantee the uniqueness and attractive appearance of your property. Can you imagine an outfit for a special occasion without modern, luxurious accessories?

**Treat your property to a steel fence that will decorate it like exclusive, extravagant jewelry.**

REVEKOLL

## Collection GERMANICA

The Germanica premium collection of fences, created from 300 series acid-resistant stainless steel, features flat fence panels whose quality and impeccable appearance are intertwined with safety and robustness - the inherent attributes of their use.

Fences from the Germanica collection by Revekoll are made of 1.5 to 2mm thick steel with an increased concentration of chromium and nickel. Owing to carefully selected parameters, the panels exhibit above-average durability, which translates into many years of maintenance-free service life. They are simply eternal. Curved edges ensure the safety of use.

Fence panels from the Germanica collection are primarily four modern-looking designs.

The CNC machines used in their manufacture could demonstrate precision, creating an aesthetic, precise perforation.

■ Bogen ■ Dietfurt ■ Cobung ■ Bamberg.

These unique models owe their design to Germanic inspirations: order, perfect cleanliness, safety, simplicity paired with exclusivity and luxury are inseparable elements of fences and balustrades from the Germanica product series.

# Collection NEDERLANDIA

*Timeless elegance*

The perfect way to describe the **Revekoll** collection of flat sheet metal fences is: luxury in a minimalist edition. Nederlandia is driven by the needs of owners of modern buildings characterized by a compact, simple body and no decorations, both on the building elevation and around it. Simple, geometric shapes define the designs and are evident both in the structure and elements of the fence.

The stylish, unique, minimalist Nederlandia collection is available in four variants, which differ by the shape of the perforated elements:

■ Haga ■ Breda ■ Delden ■ Tilburg.

The variants of fences with panels made of AISI 3161 stainless steel (with an increased content of chromium and nickel) make up a collection of exceptionally effective products, which owe their unusual effect to the use of modern CNC machines, thus ensuring an ideal perforation result.

Precisely machined and polished elements of Nederlandia collection fences and balustrades are the perfect choice for owners of residential houses, public buildings and industrial buildings, which were made in the modern architectural trend. Discover the advantages of minimalist stainless steel fences to give your property a truly stylish, modern feel.

# IS

A luxury fence made from stainless steel that adorns your property and has elements designed in Scandinavian style? This is absolutely the perfect solution. The collection of Scandinavia flat perforated sheet steel fences by **Revekoll**, a manufacturer of fences, gates, balustrades and stairs, is an item proposed to enthusiasts of tasteful elegance, that is appreciated for its simplicity and modern design.

**Revekoll** proposes extraordinary fences - spans, gates, wickets and joints, made with the utmost precision and attention to achieving the perfect final effect. Scandinavia features five stylish fencing variants that are connected using a modern technology that is more durable than welding.

The Scandinavia collection variants are:

■ Arvika ■ Lund ■ Kiruna ■ Malmo ■ Vaxio.

The products featured in the **Revekoll** offer are distinguished by an exceptionally modern design, where carefully crafted, geometric perforated elements overlap with transverse beams separating the upper and lower parts of each span. Holes in each element are made using technologically advanced CNC punching devices.

The Scandinavia collection proves that luxury can go hand in hand with simplicity and reliability. By means of careful detailing, where the layer contains mainly chromium oxides, the surfaces gain even greater strength and uniformity. Choose fences, gates, stairs and railings from the Scandinavia series to enhance the effect of modern simplicity both inside and outside the building.

# +HELVETIA

A particular place in the **Revekoll** offer is occupied by the Helvetia collection, thanks to its unusual design that stands out from other fencing systems. The stylish Helvetia made as part of Revekoll fencing systems features shutter fences with elements made of stainless steel with a high content of chromium and nickel (AISI 316L).

Helvetia is luxury in an effective edition. The fencing construction ensures exceptional durability, and execution with the use of state-of-the-art machines paired with manual polishing and perfecting of each element have a positive influence on the longevity of products. **Revekoll** fencing systems exhibit remarkable durability due to the use of INOX stainless steel (at least 10.5% chromium content) and an innovative bonding technology, which is more durable than welding.

Luxurious proposals, ensuring an innovative, modern, delightful effect, allow for trouble-free operation for many years. Stainless steel is non-corrosive and has no visible deposits and stains.

Eye-catching, extravagant steel shutter fences match up perfectly with modern building blocks, especially those with a flat roof and large, panoramic window openings. Choose the highest quality, precision and luxurious effect of modern design and enjoy the impeccable appearance and durability of Helvetia fences for many years.

Jewelry can be simple and effective, and Helvetia fences act as jewelry for your plot. They are an exclusive accessory that delights with its elegance, as well as practicality and a timeless effect. You just can't do without it.
